Road Safety Week and Insurance Seizures

Local officers have already taken part in a National No Insurance Week and are due to run activities for an upcoming Road Safety Week

The local Safer Neighbourhood Team, in addition to their normal duties, have done their bit for no insurance week. A large number of vehicles were checked on the police national computer and the van below was seized for having no insurance in the Wood End area.

Officers will also be assisting with a number of operations during Road Safety Week. These will include speed checks at the most relevant locations, mobile patrols focusing on road safety and also working in partnership with partner agencies to get the message of road safety and safer parking into our local schools. There may well be a competition for the pupils at the schools to design a poster promoting Road Safety....we are hunting for prizes as we speak!!

We're taking part in

ROAD
SAFETY
WEEK

16-22 November 2020

Fly-tippers Caught in the Act

Whilst patrolling during September, officers from your local Safer-Neighbourhood Team came across fly-tippers dumping all of their rubbish.

The occupants of the vehicle were spoken to and details confirmed. We will now be working in conjunction with North Warwickshire Borough Council to get a positive conviction....the matter was crimed as per protocol and yes, they were made to load the rubbish back onto the truck!!

If you find examples of this when you're out and about please contact North Warwickshire Borough Council on 01827 715341 and the great team at Streetscape will come and clear it

Property Marking and Advice

PCSO Mo Yaqub was out and about with members of Neighbourhood Watch registering bikes and offering property marking advice.

This was a great example of partnership working as we visited both Coleshill Memorial Park

And The Kingsbury Village Theatre. We will let you know when we are planning to do another day.

In addition to this, the local team, led by PC Ackroyd have delivered property marking packs to residents in Sandy Lane, Fillongley.

These packs were delivered to offer advice around security, remind residents to remain vigilant following shed breaks in the area last year as well as offering to mark property for them.

The property marking packs were provided by the Rural Crime Coordinator and funded by the Police and Crime Commissioner to support rural communities so thank you to them for their continued support.

Working in Partnership

Members of the Safer neighbourhood Team, as well as newly recruited police officers on attachment with the team worked alongside partner agencies focusing on Scrap Metal Dealerships.

Local officers, alongside British Transport police, the Environment Agency and and Network Rail attended a number of scrap metal dealers in our force area. The aim of the visit was to conduct inspections and working with multiple agencies allowed us to carry this out

Overall this was a positive day and lots of interesting information was gathered.

If you see a possible theft of metal in progress call 999 immediately providing as much information as possible.

Do not confront thieves or put yourself in any danger.

If you have any information that could help us catch offenders or recover stolen metal call 101.

Alternatively, information can be provided anonymously to the independent charity, Crimestoppers, on 0800 555 111

Visits to Vulnerable and Elderly on our Farms

As well as attending incidents, engaging with the local residents and working alongside our partner agencies, the team like to get out and about checking up on the more vulnerable who live within our community.

Officers from the Safer Neighbourhood Team based at Coleshill have been conducting visits to local farms as part of their patrol, focusing on those occupied by the vulnerable or elderly. They have been working with partner agencies to provide support for them in order for them to remain trading in these testing times and also to ensure that the welfare of the them and the animals they look after is maintained

If you know of any vulnerable residents with our area who you believe could do with a visit, a friendly chat, or assistance from either the police or our partner agencies then please let us know. You can call 101 or preferably contact us on the email below:

Cannabis Farm Found After Warrant Executed

Using intelligence obtained from our local community, your local team executed a search warrant at an address in Fillongley.

Police officers and Police Community Support Officers executed a warrant in Fillongley and found a cannabis farm at the location. One male was arrested for production of cannabis and also possession of another class B drug.

The male admitted the offences and was given a police caution. Another great example of the community and the local policing team working together.

Stolen Motorhome Recovered and Suspects Arrested

Night shift officers patrolling from Coleshill Police Office were driving around Water Orton during the early hours and spotted this motor home that looked out of place.

As officers approached the vehicle, three people made off from them on foot. Enquiries with West Midlands police informed the attending officers that the motor home was in fact stolen and the owner didn't even know!

One happy owner was reunited with their prized possession....and the three who ran away?....all found and arrested. A good night shift and another good example of the work done by patrol officers who are based back in Coleshill.

Officers spotted a HGV swerving between lanes on the M6 as it passed through our area. The vehicle was stopped and the driver smelt of alcohol, there were several empty cans of lager and vodka bottles in the vehicle as well as an open can of lager in the cup-holder! The driver was arrested on suspicion of driving whilst unfit through alcohol and taken to Nuneaton custody.

Great work from the attending officers who could well have prevented an accident involving such a large vehicle.
